

# Howler™

## Low Frequency Siren & Speaker System

Adding a layer of warning for intersections and high risk areas when used with your 100/200 watt siren amplifier, Howler provides deep tones to penetrate other vehicles, alerting drivers and pedestrians of your approach.

## FEATURES

- Howler is an add-on to any 100/200 watt siren amplifier and is not a replacement to the vehicles primary siren
- Uses low frequency tones to synchronize with the vehicles primary siren tones
- Includes low frequency siren amplifier and speaker(s)
- Works with any sweeping, Hi/Low, or electronic mechanical tones generated by the primary siren
- Includes 8 different tone durations, 7.5-60 seconds
- Uses the primary siren speaker output wires and divides the frequency to one of three frequency bands via Scan-Lock™ buttons. Selections are ¼ tone, ½ tone, or a composite of both
- Includes two external cancel controls. Choose from 12 volt or ground deactivation
- Certain vehicle models may utilize single or dual speaker systems
- Two year warranty
